

AWARENESS GENERATION ON ENVIRONMENT CONSERVATION & TREE PLANTATION PROGRAMME

Jankalyan Bahuuddeshya Sanstha
Ramtek

Regi. No : MH/723/2009 (Nag.)

All the greens are turning into ash. She gives us life, nurtures us with her light and shade and we poison her for years...every single day! She gives us the purest form of water and we contaminate her with toxics. She is Mother Earth, who weaves life for us from cradle to grave and we in return destroy her. And every time we give her death, we take a step forward towards our own.

Mother Earth has blessed us with life since time immemorial but the unscrupulous behavior of mankind has led to a variety of environmental hazards. The scenes of the movies like "Day After Tomorrow" and "2015" are disbelieving, counter questioning the whole idea in present day's context with regards to escalating pollution, deforestation, population explosion & diminishing resources. From pollution to population explosion, from destruction of rain forests to the melting glaciers in the Arctic, our environment is dying and we are dying with it.

The proposed project on "Awareness Generation on Environment Conservation & Tree Plantation Programme" in Nagpur, Maharashtra aims to sensitize people of Ramtek taluka that conserving our environment is the utmost need of the hour. Tree plantation drives would be carried out and the beneficiaries would plant saplings at parks, inside school campuses, hospital compounds, around houses and community areas. Trees would also be planted along the roadside all over the district. Community members would be stimulated to use cloth / recyclable bags, use dustbins, keep the surroundings clean through regular brooming and avoid water logging through immediate water suction machines by MCD. The NSS members of each school would be given the responsibility to spread awareness and take an active part in the Go Green drive not only inside their school but also in the entire area.

The potential beneficiaries would be divided into support groups titled "Green Groups" and each group would be allotted the separate responsibility. The different activities to be undertaken by the group would be Tree Plantation, Pollution control, cleaning bore wells, cleaning marshland and swamps, etc.

Organizational profile : Jankalyan Bahuuddeshya Sanstha has been working towards social upliftment since the organization was established and its key sectors of operation have been spreading awareness on environment conservation, women empowerment, imparting education to the weaker sections of the society, etc.

An Appeal

We are greatly delighted to introduce in a few words the overall working background of Jankalyan Multipurpose Society(Regd) and is working since its inception i.e. form the year 2008 in vivid sectors our of social life and the public at large.

Our society has undertaken the vivid types works like **Social forestry, Sappling and plantation, Medical camps for the aged persons and needy weaker section, Environmental awareness programmes, Games & Sports for the youths and celebrating.**

Now in the current year we propose to hold the programs of **social forestry, Environmental conservation and awareness amongst the masses and also the camps for free distribution of books and copies to needy and poor deserving student coming from the lower strata of the society and to make arrangements for the distributions of school uniforms to such students.**

As you are well aware that such programs needs financial and material help and assistance and moral support from the benevolent sections and persons from the society as a moral, human and ethical bondage for the overall development of human society. We urdently request your kind and benevolence the help and co-operate the cause taken – up our society and oblige sir.
